

CONNECTIVITY COLUMNS

Description

- Minicolumn: Modular system that concentrates, distributes and organizes the cables for the conduction of alternating electrical energy and regulated, as well the telephone for voice and the network to internet data
- Pole and Floor Tower 1 module: Column for electrical installations, voice and data.
- For indoors use
- Easy and simple installation with snap assemblies and screws. Includes assembly instructions
- High dielectric strength
- Support, cover and double contact TEK 100, reduces the installation time, avoiding making special cuts, is easy and fast placement

Product Properties

- Resistance to humidity and corrosive atmosphere
- Operation temperature -40°C a +85°C (-40°F to 185°F)

Solution / Market

Home

Office

Industry

Materials

- White and aluminum (on request) color
- Rigid high-impact PVC, flame retardant
- Rigid high-impact ABS, self-extinguishing
- Galvanized sheet cal 20
- Galvanized steel
- Polyethylene

Certifications/Tests

- NOM - 001 - SEDE - 2012
- ASTM Test to 250 hrs. Should not change tone
ASTM G-154 (500 hr)

It is recommended for installation

- To be used with Mini column, half circle duct and/or flexiducto
- Thorquete Wall Plugs (Thorsman)
- Screws (Thorsman)
